Dance is done “contra” – two lines facing each other. Dancers should not be directly across from each other, but directly across from spaces between the dancers.

Start on left foot, step to left, bring right foot in to close and tap left foot; with right foot, step to the right, bring left foot to close and touch right foot.

With left foot, cross over right foot, moving to the right. Step out with right foot, step back with left foot. Moving to the left, with right foot, cross over left foot. Step out with left foot, step back with right foot. Repeat.

Step forward on left foot: left, right, left; touch hands with dancers that are across; step back on right foot: right, left, right.

Step forward on left foot and turn $\frac{1}{2}$ turn to the left. Step back on right foot and step on left foot, then step in place, right, left, right.

NOTE: dancers should be on opposite side of where they started.

Repeat turn steps above to return to original line and begin dance all over.
