

## **COME DANCE WITH ME – danced to:**

Come Dance with Me – Nancy Hays

Come Softly to Me – the Fleetwoods

Start with a lock step to the right (ala Four Wheelin'), then brush the left foot, then lock step with the left foot, holding the last beat – 1, 2, 3, 4, 5, 6, 7 hold;

Bring the right foot over the left, then, step out with the left and put the right foot down, then weave for five steps (left foot over, right foot out, left foot back, right foot out, left foot over);

Step out with right foot, step down with the left, then step across with the right foot (twinkle) and hold the fourth beat;

Step out with the left foot, step down with the right, then across with the left foot (twinkle) and hold the fourth beat;

Step out with the right foot, step down with the left; then weave across to the left for six steps (right foot across, left foot out, right foot back, left foot out, right foot across, pivot to the left) – the eighth beat is the turn. Because the beginning step is a lock step and it is diagonal, the turn is approximately 5/8 -- designed to point you a corner for the dance (lock step) to begin again.

Repeat.
