

PONTOON – danced to:

Pontoon – Little Big Town

Start with right foot:

Walk forward slowly with right, then left foot;

Rock back on right foot, recover on left and step on right;

Make a quick, full turn to the left starting with left foot going back around, and finish with right foot, then coaster step, left, right, left;

Lock step to right for three beats (right, left, right) and fourth beat is step to the left which is the start of a lock step to the left;

The next four lock step moves are right, left, right and the fourth beat is the left foot crossing over the right; (this is done very quickly);

Slow down again and step out to the right and then $\frac{1}{4}$ turn to the left for four beats (so it's right, left, right, left);

Step out to the right, bring left foot behind, hop and put left heel out and end with right foot crossing over left (this is syncopated and quick);

Step out to the left, bring right foot behind, hop and put right heel out and end with left foot crossing over right;

Make two $\frac{1}{4}$ turns to the left ($\frac{1}{2}$ turn) and then shuffle forward with right foot (right, left, right);

End with step out to left and step out to right, then coaster step (left, right, left).

Repeat.
